# Electrical Panel Project Manager

**Classification:** Full-time (approx. 40hrs/week), non-exempt

**Overview:** This position needs a high achiever that can manage engineers to produce on time quality electrical designs for all the electrical control panels MachMotion produces. We need an experienced project manager with a strong electrical background. This person will verify that we have collected the correct information from our customers, communicate the information to our engineers, and then assist our electrical panel shop as they build. Ultimately this person is responsible for making sure the electrical control panels we produce will meet our customer's needs.

**Responsibilities:**

1. Manage a team of engineers to produce electrical schematics, layouts, and bill of materials for all the electrical control panels MachMotion manufactures
2. Manage budget and timeline for each job
3. Oversee electrical standards on all products manufactured by MachMotion

**Knowledge, Skills, and Abilities:**

- Incredible organization skills
- Wiz in project management
- Quick decision making ability
- Ability to work well in a fast-paced, collaborative environment
- Knowledge of electrical theory

**Education and Experience:**

- Minimum 3-5 years of project management experience
